Environmental Policy Statement

This is the Environmental Policy Statement of

Lincoln Binns Ltd

We are committed to the continuous improvement of our environmental performance, as part of our overall goal of implementing the principles of sustainable development in all areas of our work. Our aim is to ensure that environmental objectives are integrated into relevant business objectives in a cost-effective manner.

We recognise that many of our activities have an impact on the environment and we aim.
to conduct our business and operations to reflect best environmental practise. We aim to implement an environmental management system appropriate to the location, scale and nature of our activities to demonstrate our commitment to protecting the environment. Specifically, we will:

- strive to meet, and where appropriate exceed, all relevant environmental! legislation and regulatory codes of practice.
- minimise any negative environmental effects caused by our operations and activities, use energy efficiently and minimise waste and pollution.
- purchase, whenever possible, environmentally friendly goods and services and influence our suppliers and contractors to ensure that goods and services! procured support our environmental policy.
- establish recycling schemes for all appropriate waste produced by the business.
- take measures to increase staff awareness of our environmental performance and individual environmental responsibilities, and ensure that environmental management is included within our staff induction and training programmes.
- review and revise our environmental statement every three years.
- We monitor Climate Change working towards understanding our Carbon Footprint while aiming to meet Climate Change Objectives and Targets through the Monitoring of Relevant Legislations and Guidelines.
