Product Images

Description

The U-Case range is a 6-piece enclosure kit, with 1U (44.2mm) tall side extrusions in fixed lengths. A set size of front panel and matching top and base panels to make a variety of size combinations.

The maximum height of components on a board mounted in the bottom slot is 30mm.

Available in cut lengths of 80mm, 120mm, 160mm or 220mm.

Available in set widths to suit 100mm, 128mm, 160mm and 220mm

In Silver, clear anodise - the cut edges of the extrusion are not anodised.

For alternative lengths, colours or for full customisation go to the [customisation](#) area of the website
