## Product Images

## Description

The E-Case B is an extruded aluminium enclosure box section that has been designed to fit a 100mm wide PCB or

carrier plate.

The maximum height of components on a board mounted in the bottom slot is 18.6mm.

Available in cut lengths of 80mm, 160mm or 220mm.

In silver or pre-anodised in black - the cut edges of the extrusion are not anodised.

For alternative lengths, colours or for full customisation go to the [customisation](#) area of the website
