Description

The UnioBox 2 range is a 6-piece electronics case kit in silver. Kit includes: 2x 2U/82mm tall side extrusions in fixed lengths, end plates, top and bottom plate and self tapping screws.

The maximum height of components on a board mounted in the bottom slot is 55mm. The outside of the box features a pair of dovetail slots which will accept multiple mounting options.

Available in cut lengths of 80mm, 120mm, 160mm or 220mm.

Available in set widths to suit 100mm, 128mm, 160mm and 220mm PCB's. Overall case width is board width + 4mm.

In silver - the cut edges of the extrusion are not anodised.

Extrusion
